PROFESSIONAL SUMMARY

Full-stack developer with 2+ years building web and mobile applications using React/Next.js, React Native, Django, and FastAPI. Build features with LLM APIs, design PostgreSQL and Redis backends, and ship deployments through CI/CD. Built systems serving 10,000+ monthly active users with measurable 40% improvements in load speed and feedback collection.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, Python

Frontend: ReactJS, Next.js, React Native, HTML5, CSS3

Backend: Django, FastAPI, Node.js / Express, RESTful APIs

Databases & Caching: PostgreSQL (Neon), MongoDB, Firebase / Firestore, Redis

AI & Integrations: Groq LLM APIs, Claude Code, GlitchTip, WhatsApp Flows, Push Notifications, Razorpay, Celery, JWT Auth

DevOps & Tools: AWS, Vercel, Git / GitHub, CI/CD, Linux, SSR, SEO

Core Capabilities: System Architecture, Performance Optimization, Caching, OOP, SDLC, RESTful API Design

PROFESSIONAL EXPERIENCE

Software Developer — CircleChess

Jun 2024 – Present

Bengaluru, India

- Collaborated with product and coaching teams to design a post-class **feedback system using WhatsApp Flows and Django REST APIs**, enabling students and parents to submit session feedback via WhatsApp or in-app and lifting structured feedback collection by **40%**.
- Built a **WhatsApp lead-capture flow** that redirects users to chat with experts within seconds of submitting a callback request or starting a payment, increasing qualified leads by **25%**.
- Migrated the Tournaments module (**10,000+ MAU**) from React Native to Next.js with SSR and Redis caching, improving load speed by **35%** and SEO by **40%**.
- Integrated **GlitchTip** error monitoring across the Next.js and React Native apps, surfacing **40+ production issues** via automated alerts and reducing mean time-to-resolution by **45%**.
- Implemented **push notifications** across the CircleChess iOS and Android apps, increasing user return visits by **20%**.

PROJECTS

IntentRadar — B2B Lead Generation SaaS

2026

Next.js, FastAPI, PostgreSQL, Celery, Groq LLM, Razorpay

- Built a multi-tenant SaaS that scans **4 public platforms** (Hacker News, Stack Overflow, GitHub, Reddit) and uses **Groq LLMs to score 500+ posts/day** for buyer intent (hot / warm / cold) with AI-generated summaries and outreach drafts.
- Engineered an asynchronous **Celery** pipeline running scans every **15 minutes** and delivering scored leads to **4 alert channels** (in-app, Telegram, Slack, email) within 60 seconds, with a heuristic fallback.
- Integrated **Razorpay** subscription billing across **4 pricing tiers** with signature-verified payments, org-scoped API keys, and role-based access for **3 member roles**.

BuildNApply — AI Resume & ATS Optimization Platform

2026

React, Vite, FastAPI, Neon PostgreSQL, JWT

- Created a career platform with a drag-and-drop resume builder and **instant ATS scoring** that parses **3 file formats** (PDF, DOCX, TXT) against job descriptions, plus keyword gap analysis and AI-generated cover letters.
- Designed a **user-scoped PostgreSQL data model with JWT auth** across **3 core tables**, isolating 100% of user reports and applications with secure retrieval and PDF export.
- Developed a job-hunt engine aggregating postings from **5+ sources** (LinkedIn, Indeed, Adzuna, Remotive, and more) with automated fit analysis and a Kanban-style application tracker.

PickHere — Freelance Project

2026

React Native (iOS & Android), WhatsApp Flows, Node.js, Push Notifications, Google Play

- Led the delivery of a **cross-platform React Native app (iOS & Android)** shipped to the **Google Play Store**, with push notifications and an admin dashboard that cut the client's manual operations by **50%**.
- Automated **3+ customer workflows** via **WhatsApp Flows** for in-chat data collection, reducing manual coordination.

EDUCATION

Bachelor of Technology (B.Tech), Electrical Engineering

Dec 2020 – May 2024

Ramgarh Engineering College, Ramgarh, Jharkhand, India • CGPA: 7.7 / 10

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management, Operating Systems, Computer Networks, System Design
